Title: EXTENSION FOR ROOF CONVEYOR

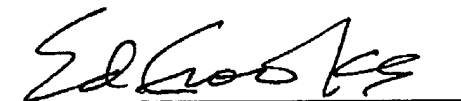

Via Facsimile (703) 872-9306

STATEMENT OF THE SUBSTANCE OF THE INTERVIEW

On March 17, 2005, a telephonic interview was conducted between W. Edward Crooks and Joseph Valenza. The discussion was directed to the outstanding §112 rejection, and in particular, the completeness of the claims insofar as how the platform is attached to the boom. Agreement was reached that if the claims were amended to indicate that the platform was connected to the boom via a support means, the §112 rejection would be overcome, and the application would be in a condition for allowance.

Respectfully submitted,
